What If a 2-Person Team Could Outperform a Team of 10?

The New Math of AI-Powered Sales

The Ceiling

Growth Hits a Wall

More accounts means more research. New markets need more reps.

Traditional scaling is a headcount problem - **expensive and slow**.

The Reality

Your Reps Are Stuck in Admin

Over 70% of sales time goes to research, list maintenance, and data entry.

Your most expensive experts are doing work that doesn't close deals.
